PRESIDENT'S MESSAGE:

Fellow Zontians,

I am looking forward to serving as President of the Zonta Club of Cheektowaga/Lancaster. Over the past two years, I had the honor of working with Phyllis as her Vice President. I respect her, not only for all she does for Zonta, but as a dear friend. Thank you Phyllis for all you do.

Our new Board will be meeting soon to share ideas relating to hands on service, discussing ways to increase our membership, working on our Goals and Objectives and informing the public of our Zonta Mission.

Please feel free to contact me at anytime with your ideas to making this Club one of the best; and if you have any issues that need to be addressed, just call and we can work through them together.

I am looking forward to a successful year with your support and cooperation.

Renette

LYNN FISHER, the Z Club Advisor for Lancaster High School, has done a wonderful job this year. Thank you Lynn.

Thanks also to Barb Zsiros for keeping informed about Amelia Earhart. Check out the website video: http://www.huffingtonpost.com/2012/06/01/amelia-earhart-freckle-cream_n_1562762.html?icid=maing-grid10%7Chtmlws-main-bb%7Cdl7%7Csec1_lnk3%26pLid%3D166257

Scientists believe they've found a jar of freckle cream belonging to Amelia Earhart in the South Pacific

[A jar of anti-freckle cream found in the South Pacific](#) may provide another clue in the mysterious disappearance of [Amelia Earhart](#) 75 years ago, Discovery News reports. Famed as the [first woman to fly solo across the Atlantic Ocean](#), Amelia Earhart vanished during an attempt to circle the world near the equator. Later declared missing and eventually dead, many believed her plane ran out of fuel and crashed into the ocean.

But now historians say the jar could provide further evidence to support the theory that [Earhart and navigator Fred Noonan may have landed the plane and survived as castaways](#) on the uninhabited island of Nikumaroro in the republic of Kiribati.

The jar was discovered by [The International Group for Historic Aircraft Recovery \(TIGHAR\)](#) who made the connection between Earhart's dislike for her freckles and the

identical glass jar used by [Dr. C. H. Berry's Freckle Ointment](#), a cream sold in the early 20th century used to help fade freckles.

The theory also [gained support from Secretary of State Hilary](#)

[Clinton in March](#) when she encouraged scientists and historians to continue the search for the full story behind Earhart's disappearance.

Correction: A previous version of this article stated Amelia Earhart was attempting to circle the world's equator. In fact, Amelia Earhart was attempting to circle the world, while flying near the equator. The article has been updated to reflect that correction.
